Section 4: Performance Information

In the table below, indicate your rating for the contractor's performance by placing an "X" in the appropriate block to the right of each question. Provide supporting information for each response in the space provided. Attach additional pages if more space is needed. The performance rating scale is defined as follows:

<u>Code</u> <u>Performance Rating</u>

- **EXCEPTIONAL** Performance meets contractual requirements and exceeds many requirements to the Government's benefit. The contractual performance being assessed was accomplished with few minor problems for which corrective actions taken by the contractor were highly effective.
- V VERY GOOD Performance meets contractual requirements and exceeds some requirements to the Government's benefit. The contractual performance being assessed was accomplished with some minor problems for which corrective actions taken by the contractor were effective.
- S SATISFACTORY Performance meets contractual requirements. The contractual performance being assessed contains some minor problems for which corrective actions taken by the contractor appear or were satisfactory.
- M MARGINAL Performance does not meet some contractual requirements. The contractual performance being assessed reflects a serious problem for which the contractor has not yet identified corrective actions or the contractor's proposed actions appear only marginally effective or were not fully implemented.
- U UNSATISFACTORY Performance does not meet most contractual requirements and recovery is not likely in a timely manner. The contractual performance being assessed contains serious problem(s) for which the contractor's corrective actions appear or were ineffective.

Past Performance Questionnaire

The 341st Contracting Squadron, Malmstrom AFB, Montana of the Air Force Global Strike Command is in the process of competitively selecting a source for Adding Anti-Ram Cables. Work consists of adding an anti-ram cable system and replacement of the existing gate with an anti-ram gate. The anti-ram cable system consists of posts, cable, cable hardware, and attaching system to existing cathodic protection system. The replacement of the existing gate with an anti-ram gate consists of removing existing gate, installing an electrical duct bank and pull boxes, pulling wires back to source, installing new wire from source through duct bank to load, and installing the new gate.

One of the considerations in proposal evaluation is the verification of the offerors' past performance on contracts or other work efforts which reflect the offeror's ability to perform on the proposed effort. We depend on information received from organizations such as yours, which have had first-hand experience with the offeror, for the evaluation of the offeror's performance on those contracts or work efforts.

Our areas of interest regarding the offeror are summarized in the enclosed questionnaire. In order to meet the acquisition milestones, we request your written response no later than 13 June 2016. This schedule will allow us sufficient time to analyze the data prior to the start of negotiations, evaluation boards, and/or selection of an apparent awardee.

To assist you in preparing your response and expediting your reply, the questionnaire may be filled out electronically and e-mailed to gregory.mcdonald.13@us.af.mil. Your completed questionnaire will become a part of the official source selection records.

Your assistance is greatly appreciated and your prompt response will be one of the keys to the successful and timely completion of this Source Selection.

MARK D. JEFFERSON Contracting Officer 341st Contracting Squadron 7015 Goddard Drive Malmstrom, AFB, Montana, 59402
