Perimeter Security Assessments

PERIMETER SECURITY ASSESSMENTS

Predict, Prevent, and Protect.

Executive Summary and Findings Report

We identify the vulnerabilities, risks, priorities, and justifications for making physical security and operational improvements.

Threat Vulnerability Assessment (TVA)

Vulnerability assessments help identify potential threats to customers, operations, the community, and national security.

Recommendations for Mitigating Risk

We make unbiased technical and design recommendations for mitigating risks and showing the pros and cons of each.

Budget Development for Solutions

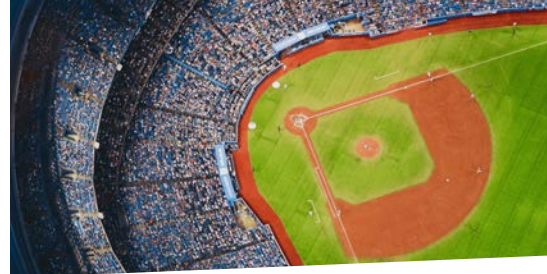

We develop budgetary costs for implementation. Including material costs, design-assistance hours, and installation cost.

ASSESSMENT REPORT

Our Process

- Site visits, tours, and interviews
- In-depth review of industry and regulatory requirements
- In-depth review of policies, procedures, and operations
- Extensive review of past, current, and emerging industry threats

REGULATIONS EXPERTISE

We Help You Navigate Your Industry Regulations.

As members of NERC, NCS4, InfraGard, ASIS, and the SIA Utility Security Board, we stay current with regulations and best practices.

Our involvement provides us with the expertise to offer tailored assistance for understanding and complying with your specific regulatory requirements, ensuring alignment with industry standards.
